The Strength Of Veterans Voices.

"Why use up the forests which were centuries in the making and the mines which required ages to lay down, if we can get the equivalent of forest and mineral products in the annual of the hemp fields?"-  
Henry Ford

"Hemp is one of the greatest, most important substances of our nation."  
- Thomas Jefferson, U.S. President

'Time 4 Hemp' made its debut Jan 5th 1991. Over the years the series has blossomed into a Global Broadcasting Network featuring amazing activists, radio hosts, writers, producers and litigation experts who have come together in one voice denouncing marijuana prohibition.

Advertising with this team has tremendous benefits! There has never been a more important time to invest in the Cannabis Movement than today, with Time 4 Hemp. This network has the power, through mainstream broadcasting on iHeartRadio, along with the HIGH QUALITY production with the all-star lineup, to reach over 10.5 million registered iHeartRadio users.

If you are looking for an explosive opportunity to talk to your key audience - then become a sponsor on the network. We will create the perfect package that offers the most traction for your campaign.

In such an historic time, the companies, individuals and organizations who advertise on Time 4 Hemp will have their voices heard as we aggressively expand our audience. Your dollars will help put the programs on this network in front of millions of people and forever change the landscape of informed activism.

## It's About Time.....

This month's issue of Joint-Conversations is a network program guide for Nov. - Dec. 2019. Each month, the network will try to release a program guide so our audience can keep

**Up2Date @ Time4Hemp.**

Nearly all programs produced for the network are 60-minutes or less in length. Most people today have limited free time; because of that we intend to keep our shows short.

It's not easy to do since our guests have much to share. We are working with the concept of doing 2-part programs - but sometimes it makes more sense to release a 42-min MP3 instead of two 21-min files.

One of the important aspects to the website are [the network archives](#). We have been producing [programming since 1991](#) and every show can be found on the website. I would encourage you to look through them in your spare time. There are [many great guests](#) who have taken Time 4 Hemp.

Another reason for keeping our segments short is so they will be easy to listen to on your smart phone. The website works great on any device but sometimes an MP3 can be difficult to listen to if the file is too large.

Maintaining a blog on SquareSpace is amazingly easy to do as well. Because of that, new posts will be added to [The Learning Center](#) blog 2-4 times a week.

Maintaining the MONTHLY newsletter, [Joint Conversations](#), will be easy to do. In the past, SOMETIMES I was able to make deadline and SOMETIMES I wasn't. The newsletter came out SOMETIME during the month. I'm now gonna TRY to release it SOMETIME the FIRST week of each month.

### Hemp IS Petroleum!

The featured guest in this segment, **Gatewood Galbraith**, once asked if he and I could do a show about how hemp can be used as fuel. It was a topic he felt strongly about and wanted to get the information into the ears of as many people as he could.

He felt certain that, if most everyone could come to this realization, that one fact alone would cause the people of the world to demand an end of cannabis-hemp prohibition.
